Mr. Rowley, Asst. Dir.
U.S.Secret Service
Washington, D.C.

Dear Mr. Rowley,

It is now more than a month since I heard from you, about a month since I responded. I hope this does not mean reversion to the period when proper mail was more frequently ignored.

Meanwhile, I will appreciate your action I have requested. You will recall that in the conference we had [illegible] ago, I discussed these things and you had copy of the brief notes I made to help me various items in mind. Aside from your own notes, you have had to remind you. Because I [illegible] your many pressing obligations, I have not [illegible] after you about this, but my interest and [illegible] this information, when it exists, is unchanged. And quite some time has elapsed.

Among the things in which I have most interest, things that do exist and have not been [illegible] in respect to my requests, aside from those about which I have recently expressed my interest, are these two:

The autopsy notes, conveyed to the Secret Service, in part described on in Dr. Humes' hands when he testified, one of which other proofs are in my possession. These were made, did exist, and I sent you a copy of the memo with which they were forwarded and receipted by your agency.

The statements now obtained by Secret Service agents from the Parkland medical people, referred to in CD62. My last request, of the Archives, for these, dated November 18 or last year, is without answer.

I remind you again that I have not received from the Archives that which you told me you had given them to be given to me. They have not, in fact, even written me that you forwarded these things. I remind you again that this manner of delivery is not prescribed by or required by the law and does not meet with my request, especially when not accompanied with the covering letters. It would be helpful if I had those covering letters.

If you believe another meeting could serve a useful purpose, please let me know. As it stands now rest, my options are more limited than they need be or than I prefer.

Sincerely,

Harold Weisberg
